

## Delta Announces NEW USCT Linear Drivers

### Highlights & Features

- Constant current design
- Universal input voltage 120-277Vac
- Class 2 Output
- Up to 90.0% efficiency for 80W model
- Programmable output current by DELTA interface
- Min. dim 1% of 0-10V / Resistor Dimming methods
- Dry and Damp location rated
- Linear type design for indoor and office lighting applications

#### USCT-030105GA

0.15,1.05A 30W 108-305Vac  
280.0 x 30.0 x 25.4mm  
11.0" x1.2" x 1.0"

[FAE Support](#) | [Quote](#) | [Datasheet](#)

#### USCT-050140GA

0.35,1.4A 50W 108-305Vac  
280.0 x 30.0 x 25.4mm  
11.0" x1.2" x 1.0"

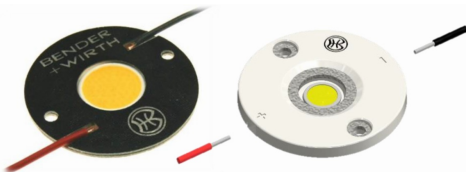

[FAE Support](#) | [Quote](#) | [Datasheet](#)

#### USCT-080210GA

0.35,1.4A 80W 108-305Vac  
360.0 x 30.0 x 25.4mm  
14.2" x 1.2" x 1.0"

DELTA's USCT-Linear series of output current LED drivers (with i-Programming control) comes with affordable and reliable features. Compatible with built-in type and linear mechanical case design from any LED manufacturer. Output current with i-Programming design for different lumen application. Meet North America safety certifications, and compliant with FCC and NEMA Immunity/ Emissions/ Harmonic requirements. The products are designed and tested rigorously to work in various indoor LED lighting conditions.

### BENDER +WIRTH

New LED COB Catalog  
of Standard Holders  
Announced by NRC

# NRC ELECTRONICS

International, Franchised Distribution Since 1974

Save Big With NRC

- Algorithmic BOM Analysis
- 47 Years of Tribal Knowledge in the Electronics Industry
- Proven Expertise In Automotive & Military Sectors
- MRP Forecasting
- In-house Visual & Electrical Testing
- On-site FAE (Field Application Engineer)

- Creative Cost Savings Programs
- EDI & Barcoding
- Customized Customer Packaging Instructions
- Focus On "Human" Engineering & Logistical Support
- Custom STAR Logistics Program - 40 Years In The Making
- Tight Focus On Quality - Continuous Improvement
